The 1912 Torpedo—\$1600 Complete

## Get this Car and be One Year Ahead of Others

All dealers are now showing the 1912 models of the HUDSON "33."

No other manufacturer has been able, as yet, to duplicate  
 all the advanced ideas that are found in the Hudson "33."

The original "33" upset the calculations of many manu-  
 facturers. Nothing quite so simple, so handsome, so  
 quiet or of so much worth had been brought out. No  
 doubt was expressed by anyone in the trade as to the value  
 of the car or the correctness of its design, for Howard E.  
 Coffin, its builder, was admitted to be the most advanced  
 creator of new, startling and successful ideas that the  
 industry has produced.

He had built four famously successful cars before he  
 turned his attention to the HUDSON "33." Each of  
 those cars had served as a model for less clever makers.  
 You will find duplicates of his earlier designs under  
 many different names. The HUDSON "33," however,  
 was so radically different from anything that had ever  
 been done that it was impossible to so quickly change  
 other designs to conform to it.

This season some manufacturers are using some of the  
 ideas which Mr. Coffin introduced last year on the HUD-  
 SON "33." The indications are that by 1913 a great many  
 other cars will be close duplicates in all essentials of the  
 HUDSON "33."

If you choose a HUDSON "33" you get a type of car  
 that will be in general use next year. You will, in ad-  
 tion, get a much better value than was the original HUD-  
 SON "33"—that of 1911.

The 1912 car is a distinct advancement over that  
 of 1911. It is little different mechanically; but in the way of  
 equipment, in extra equipment and in other details wh-  
 to the life, appearance, power and comfort-giving q-  
 of an automobile, it is much better.

### The Car Which Last Spring 2,000 Failed to Get

No car is talked about so much as the HUDSON  
 "33." Everybody who knows anything at all about auto-  
 mobiles knows the wonderful value and advanced ideas of

The entire year's production of the factory was con-  
 siderably less than in the year before. Orders for  
 the car were so numerous that the car was  
 for sale and at the close of the 1911 season we had  
 more than 2,000 orders which we could not fill.

That is the story of the HUDSON "33."

No dealer was able to take care of his trade. W-  
 cars on hand now that will take months to fill.

See the HUDSON "33." People buy it because  
 of its value. What others do in this respect  
 be your guide.

Go to your dealer's and see the 1912 HUDSON  
 "33." If that is not convenient, write for literature.

Pictured above is our 1979 Jr. High Pep Club. They traveled far and near this year to try to cheer their boys on to a victory each Tuesday night. To the left are our '79 Jr. High Cheerleaders who were also out there every Tuesday night screaming their lungs out showing the football team and coaches they really cared. Although there were more losses than there were gains the Jr. High Pep Club and Cheerleaders thought it was worth going back to school on Wednesday voice or no voice.

# All About Us!!!

## The Editors Speak . . .

"Yesterday" as we looked back on this senior year, we must admit the emotions and memories remind us somewhat of an old Beatle album. So "Let It Be" that the senior class of 1980 have "Come Together" to be the best group to ever graduate from Heavener High!

Life is "A Long and Winding Road," and will carry us "Across the Universe." These past twelve years seem like "Hello Goodbye," but we know our class will remain together in spirit.

We've all felt isolated at times like "The Fool on the Hill," but "With A Little Help From Our Friends," we have overcome the worst (for instance: Senior English!!!).

It has been a fantasy come true to grow up in a town somewhat like "Penny Lane." We would like to take this opportunity to thank the faculty and the townspeople who have helped us along the way.

"Yesterday," now we long for yesterday — "OB-LA-DI-LIFE Goes On" and we wish the seniors the best of luck always.

God Bless Ya,  
Randy and Lori

P.S. We believe in Tomorrow!
